- AI-Assisted Development

Programming/Scripting Languages

Java Script
Python
Java
HTML
CSS
C++

Jhon Rey Y. Lazarra

BS Information Technology Graduate

Aspiring IT graduate with a strong foundation in frontend development, focused on building clean and user-friendly interfaces. Experienced in hardware troubleshooting and maintenance, with a practical, hands-on approach to solving technical issues. Currently learning and actively working on backend development and API integrations, building full-stack capabilities through real projects. A collaborative "vibe coder" who enjoys creating with creativity, flow, and problem-solving energy.

Experience

- 2025**
Freelance Developer — Capstone & Commission Projects
Self-Employed · June – August 2025
Independently sourced and worked with clients to build capstone projects on a commission basis. Handled the full client lifecycle — from finding leads and scoping requirements to delivering finished software — entirely on my own initiative over three months.
- 2025**
Local Government Unit (DILG) – Government Internship Program (GIP)
Participated in the Government Internship Program under the Department of the Interior and Local Government (DILG), providing administrative and technical support within the local government office. Assisted with day-to-day office tasks and provided basic IT support such as computer troubleshooting, printer maintenance, and resolving minor hardware and software issues, including data recovery from a corrupted USB drive.
- 2023**
Hack 4 Gov – Hackathon Participant
Competed in *Hack 4 Gov* (2023), a hackathon organized at Seda Hotel, Iloilo City, participating in a PicoCTF hunting activity that involved solving cybersecurity challenges across categories such as cryptography, reverse engineering, and web exploitation.

Certificates

Hack 4 Gov Certificate of Participation (August 18, 2023)
University of Antique College of Computer’s Studies Academic award 2023-2024

Technical Skills

- Front End:**

React Native
HTML
Expo Go
- Backend:**

Firebase
Node.js (basic knowledge)

Tools & Technologies:

Git & GitHub
VS Code
Firebase Console
ESP 32
Edge Impulse
